Structures Bridge Replacement

The outdated 3300 South Bridge over I-215 East will be replaced under this project. The bridge is one of several in the I-80/I-215 East area that will be replaced this summer using accelerated bridge construction techniques. The new bridge will be built in a nearby location, prior to its placement in the existing location.

Currently Identified Budget: \$8.5 million

Legislative Districts:

Senate: 4

House: 33

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.

Anticipated start date:

SUMMER 2008

Municipality (ies): Salt Lake County, East Millcreek, near Holladay

Take care of what we have • Make the system work better • Improve safety • Increase capacity
